

An ARTEREX Company

#### WHO WE ARE

**Kabo develops & manufactures a wide array of medical procedure bags of various materials, sizes and clinical applications.**

We specialize in bags for medical applications: **Drainage | Enteral | Parenteral | Uro | Cardioplegia**

# Research and Development

## We invest in knowledge

Our devices are the result of large investments and solid partnerships. Each new Kabo project is preceded by a detailed feasibility study and an accurate assessment of its cost. All these factors, along with a focus on continuous improvement, allow us to create value for our customers.

# Production

## Industry leading quality

We believe investing in quality, in every respect, guarantees the best results. Our success is first and foremost measured by our customers' satisfaction. Kabo combines industry leading quality with high efficiency manufacturing and has always invested in research, technology, world class production facilities and human resources.

## QUALITY means:

- High quality suppliers
- Well trained employees
- Open doors to client audits
- Continuous improvement
- ISO-9001-2018
- ISO-13485-2012
- Directive 93/42/ECC
